

# Denis Klimovich

Front-end developer

[denis.klimovich.web@gmail.com](mailto:denis.klimovich.web@gmail.com)

+90 534 7934805

portfolio: [kay4yk13.github.io](https://github.com/kay4yk13)

*Efficient developer with a rich experience in various fields and a passion for new technologies.*

*Have a proactive attitude towards the work-flow and live in general.*

## Tech skills & stack

### Abstraction Basics

- KISS, DRY
- SOLID principles
- Design Patterns understanding
  - Singleton
  - State
  - Iterator
  - Observer

### Tools & Environment

- Vscode / PHPStorm
- Linux(Ubuntu)
- Docker
- Postman
- PHPmyAdmin
- MailTrap
- Slack
- Atlassian suit
- Notion

### FE development

- HTML5
- CSS (ScSS, SASS)
- Responsive mark-up
- JS / TS
- DOM & BOM interaction
- Figma

### VueJS

- vuex
- router
- conditional rendering
- hooks
- props-events
- mixins, filters
- global event bus
- slots
- REST API
- UI Frameworks

### GIT

- git flow
- PRs reviewing
- git conflicts resolving
- cherry-picking
- SSH deploy to production and npm build (AWS + ServerPilot Ubuntu)

### npm / yarn

- packages search, selection, and implementation
- conflicting versions resolvment
- packages CSS override (VuePrime, vue- swiper, etc.)

### CMS / Frameworks

- Laravel 8
- Wordpress

## Soft Skills

- |  |  |  |
|--|--|--|
| <ul style="list-style-type: none"><li>• Daily reporting</li><li>• Comprehensive educated</li></ul> | <ul style="list-style-type: none"><li>• Attentive for details</li><li>• Task decomposition</li></ul> | <ul style="list-style-type: none"><li>• Collaborative</li><li>• Teammates guidance</li></ul> |
|--|--|--|

*My mentor taught me well that*

*"dev who asks a question can look dummy for 5 minutes, dev who never asks a question - is dummy for life"*

## Languages

- |   |   |  |
|---|---|--|
| <ul style="list-style-type: none"><li>• English - B1/B2</li></ul> | <ul style="list-style-type: none"><li>• Belarusian - native</li></ul> | <ul style="list-style-type: none"><li>• Russian - native</li></ul> |
|---|---|--|

## Education

Belarusian State Economic University, Advertisement & marketing, 2007-2012

## Recent projects

Project	<b>Transport management system</b>
Period	November 2022 – Present
Project Role	Front end developer
Task executed	<ul style="list-style-type: none"><li>● Application components development with VueJS and TS:<ul style="list-style-type: none"><li>○ Brand new functional components and extended from existing classes</li><li>○ Extendable functional wrappers and mixins</li><li>○ Chunked data collection from backend and assembling on FE-side</li><li>○ Inefficient solutions refactoring</li></ul></li><li>● Several backend (laravel) models/migrations/controllers with related logic</li><li>● Vuetify elements implementation and customization</li></ul>
Project	<b>SaaS solution for DIY crafting with social network features</b>
Period	June 2022 – October 2022
Project Role	Front end developer
Task executed	<ul style="list-style-type: none"><li>● Develop components based on Figma mockups</li><li>● Responsive markup</li><li>● JSON API (REST) integration in collaboration with BE developer</li><li>● FE features implemented:<ul style="list-style-type: none"><li>○ Auth (JWT), FE + server-side validation with HTTP status codes handling</li><li>○ Catalog with sorting/filtering, product-page, gallery</li><li>○ Implemented and customize touch-interactive elements (Swiper)</li><li>○ Profile editor with Avatar uploader/cropper/editor</li><li>○ Create Interfaces of core-feature components: scheme voice-reading and visual grid scheme editor</li><li>○ Common UI elements and utils/helpers development</li></ul></li></ul>
Project	<b>Widget for Gambling streamers + management dashboard</b>
Period	February 2022 – May 2022
Project Roles	Front end developer, PjM, Designer
Task executed	<ul style="list-style-type: none"><li>● Full application specification</li><li>● Design the main interface mockups from scratch</li><li>● JSON API (REST) integration in collaboration with BE developer</li><li>● User Flow and Data Flow (BE &lt;--&gt; FE) scripting</li><li>● Full FE implementation:<ul style="list-style-type: none"><li>○ Dynamic widgets for screen capture</li><li>○ CRUD interface</li><li>○ Auth (JWT), token refresh</li><li>○ Cross-app logic</li><li>○ Landing Page</li><li>○ Production SSH FE deployment</li></ul></li></ul>

Project	<b>Internal service for staff management, backoffice</b>
Period	October 2021 – February 2022
Project Role	Front end developer
Task executed	<ul style="list-style-type: none"> <li>• JSON API communication, vuex</li> <li>• Migrating static HTML to SPA =&gt; VueJS consuming API</li> <li>• Schedule for staff</li> <li>• Custom task/time tracking system</li> <li>• Metrics / graphs / reports analytics dashboards</li> <li>• Different pages &amp; components development / polishing, including: <ul style="list-style-type: none"> <li>◦ Administration</li> <li>◦ Profiles</li> <li>◦ Projects</li> <li>◦ Tickets</li> </ul> </li> </ul>
Project	<b>CRM for e-commerce</b>
Period	July 2021 – September 2021
Project Role	Front end developer
Task executed	<ul style="list-style-type: none"> <li>• Development new modules with VueJS &amp; Quasar framework</li> <li>• Communication with BE by internal API</li> <li>• 3rd party API integration: parcel service</li> </ul>
Project	<b>Tetris</b>
Period	May 2021 – June 2021
Project Role	Front end developer
Task executed	<ul style="list-style-type: none"> <li>• Designed and developed all in-game conditional rendering algorithms with VueJS</li> <li>• Developed figures movement and rotation logic, collision detection</li> <li>• Implement state manager</li> <li>• Implement sprite based sound effects</li> </ul>
Project	<b>E-commerce catalog</b>
Period	March 2021 – May 2021
Project Roles	Front end developer
Task executed	<ul style="list-style-type: none"> <li>• Created local running web application on HTML + vanilla JS</li> <li>• Stylize all the pages according to Figma mockups (opensource)</li> <li>• Migrated project to VueJS</li> <li>• Full FE implementation: <ul style="list-style-type: none"> <li>◦ Catalog, product card, cart page interlinked with vuex and router</li> <li>◦ Rendering catalog from external source</li> <li>◦ Google maps integration</li> <li>◦ Deployment</li> </ul> </li> </ul>
